Akar Wangi Spa

Akar Wangi Spa is named for the sweet-smelling roots of the akar wangi plant, an ingredient used in offerings and traditional Balinese beauty treatments. Akar means 'root' and wangi means 'fragrant', also a reference to the heady scent of spices used in the spa treatments. The spa is located on the top floor of Komaneka at Rasa Sayang, with a Zen-like terrace and reflecting pool gracing its outer courtyard.

Akar Wangi Spa was designed as a luxurious, modern sanctuary with air-conditioned treatment rooms. Professional staff provide healing and beauty treatments such as facials, traditional massage, and body scrubs, drawing on ancient Indonesian herbal recipes. Akar Wangi Spa offers a variety of natural products, including luxurious Babor spa products. There is a steam room and a Jacuzzi. The spa also has a salon for beauty treatments, as well as changing rooms, showers, and safety deposit boxes. Guests receive the spa's welcome and farewell ritual in the beautiful spa lounge.

Akar Wangi Spa is not limited to in-house guests, but is open to anyone wishing solitude, ample space, and complete privacy in these rejuvenating treatments.
